

1 a.) I would first sum up all of the orders amount from the past 30 days. Then I would divide it by the number of total orders in the past 30 days to get the final answer.

b.) the metric would be the aov in dollars

c.) I get the same answer so it looks like nothing is wrong. So the value is 3145.13

2a.)SELECT COUNT(ShipperID) FROM [Orders] where ShipperID = 1;

54

b.)SELECT MAX(Quantity), LastName FROM [OrderDetails]

INNER JOIN Orders ON OrderDetails.OrderID = Orders.OrderID

INNER JOIN Employees ON Employees.EmployeeID = Orders.EmployeeID

Fuller

c.)

SELECT * FROM Customers
